

# Key Facts Sheet: Fibre Services

The information detailed within the Key Facts Sheet is applicable to all consumer Fibre plans.

Speed Tiers		12/1 Basic (Fibre 12)	25/5 Boost (Fibre 25)	50/20 Boost Plus (Fibre 50)	100/20 Superfast (Fibre 100)	100/40 Superfast (Fibre 100)	250/100 Rocket (Fibre 250)
<b>Fixed Line Fibre Networks</b> FttP, FttN, FttB, FttR	Typical Evening Speeds 7pm–11pm	10.8 Mbps	22.5 Mbps	45 Mbps	90 Mbps	90 Mbps	216 Mbps

### Typical Evening Speed

The typical expected experience between 7pm–11pm which is the busy time for Internet traffic. It is not a guaranteed minimum speed.

The actual speed experienced depends on a number of factors – see Technical Limitations below. Excludes FTTN/B lines with limited maximum line speeds.

### Fibre to the Node/Building

Your Fibre service can never go faster than the maximum line speed available at your home. You will have your line speed confirmed by Fibre when it becomes available to us. If the plan have chosen can't be supported by the line, your choices are:

- Moving to a lower plan without charge

	1–2 People	1–3 People	2–4 People	5+ People	5+ People	5+ People

## Technical Limitations/Factors Affecting Speed and Performance Include:

### Fibre Infrastructure:

The length and quality of the copper used.

### Age and Quality of Hardware/Software:

This may include your modem, WiFi routers and whether you connect to the internet via Ethernet or WiFi.

### WiFi Signal Interference:

WiFi signals may be interrupted if positioned too close to other devices like a security camera or cordless telephones.

### Network Congestion:

There are times when more people are using the network at the same time.

### Where's the Content Coming From?

Content that comes from overseas and content from servers that aren't able to cope with demand.

### Number of Connected Devices:

The number of devices being used at the same time.

### Power Failure:

Fibre service will not work during power failures.

### Medical/Security Alarms:

You should contact your device provider to find out if your alarm or other devices will work before connecting to the Fibre network and if not, what alternative solutions are available.

### Priority Assistance:

If you need telephone service but have a life-threatening medical condition, or live with someone that does, please seek a provider that can offer you a service with Priority Assistance. OCCOM does not offer telephone services with Priority Assistance.
